See Saw
Seesaw is the basic and simplest amusement experience of SWING that every child, at every latitude endlessly try.
With this product the same experience is realized in the safest way with multiple seat (10 or 12) over two lines seated back to back.
Ride is designed for a total of 10 or 12 rides, each including children and max of 4 adults seated in the external seats.
The total swing angle is 110; two lap bars contains the rides; multiple sensors control over lap bars automatically stop.
Product can be customized by colors (structures and seats).
Various themes available
